

Karawia Pack

INDUSTRIAL PACKAGING · END OF LINE

Pallet and bundle packaging films

Polyethylene films for every step after filling: bundle, wrap or hood, cover. Blown in Port Said, Egypt, tested on every batch in our own lab.

1 · Bundle
Collation shrink film for bottles, cans and cartons.

2 · Wrap or hood
Stretch wrap, stretch hood or shrink hood for the pallet.

3 · Cover
Top sheets and covers against rain and dust.

ISO 9001 | ISO 14001 | ISO 45001 | FSSC 22000 | OK Recycled | EcoVadis Committed

WHICH FILM FOR YOUR PALLETS?

Four ways to secure a load

	Blown stretch film	Stretch hood	Shrink hood	Top sheet + wrap
Applied	By hand or on a wrapper	Stretched over the load, cold	Shrunk with hot air	Sheet on top, then wrapped
Protection	Four sides, open top	Five sides, closed top	Five sides, locked to the pallet	Top and four sides
Best for	Cartons, mixed and smaller loads	Bagged goods, outdoor storage	Glass, drums, awkward loads	Bags on an existing wrapper
Thickness	15–25 µm	100–160 µm	100–160 µm	20–50 + 15–25 µm
Datasheet	**KP-TDS-008 / KP-TDS-025**	**KP-TDS-005**	**KP-TDS-006**	**KP-TDS-009**

FIVE PRODUCTS, SIX DATASHEETS

Collation shrink film
25–90 µm · KP-TDS-007

Blown stretch film, hand rolls
15–25 µm · KP-TDS-008

Blown stretch film, machine rolls
15–25 µm · KP-TDS-025

Stretch hood
100–160 µm · KP-TDS-005

Shrink hood
100–160 µm · KP-TDS-006

Pallet covers and top sheets
20–50 µm · KP-TDS-009

Each datasheet, with test data and storage advice, is online at karawiapack.com/quality. Recycled-content grades certified OK Recycled by TÜV Austria.
